Claim 7, after selachyl alcohol" insert ", and the ion exchanger has a water content of less than 10 ppm".

The following is an examiner's statement of reasons for allowance:

The rejection under section 112 is withdrawn since the claims have been amended to include functional groups which do not require undue experimentation.

The prior art rejection is withdrawn since Cohen fails to teach, or provide a basis for, using an ion exchanger with a water content of less than 10 ppm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
